

New Zealand Kennel Club

ACCREDITED DOCKING SCHEME

The Tail Docking Committee of the New Zealand Kennel Club invites registrations from breeders experienced in the banding method of tail docking, to apply to join the NZKC Accredited Docking Scheme.

This scheme is seen as imperative for the ongoing professional and acceptable image sought by breeders and owners of traditionally docked breeds.

The committee will actively seek the approval of the scheme similar to the Deer Velveters Scheme currently in operation. Appointment to the panel may provide an opportunity to be approved to continue docking should restrictive legislation be adopted.

Please send the below form to the New Zealand Kennel Club, P O Box 50903, Porirua 5240, for more information on the procedure and protocols required to join the scheme.
