13. JUDGING OBEDIENCE

13.1 Application

Unless otherwise stated, these instructions apply to all Obedience Tests.

13.2 Penalties - Mandatory

13.2.1 General

13.2.1.1 Minimum

The minimum penalty for any fault is at the judge's discretion.

13.2.1.2 Fouling

Ring fouling of any description by a dog shall be penalised by the loss of 30 points off its total score for that test.

13.2.1.3 Extra commands

Extra commands and/or signals must be penalised unless otherwise specified.

13.2.1.4 Food or Training aids

The judge will disqualify the dog from that test if the handler uses or carries into the ring or working area in any test food, manufactured whistle, clicker, squeaky toy or other related training aid other than those required to complete the test.

13.2.1.5 Man-Handling Dog

Forcibly and manually placing or controlling a dog during an exercise shall be penalised by the loss of a minimum of 50 per cent of the points allocated to the exercise. Judges may however consider a lesser penalty for dogs competing in Special Beginners and Novice at Ribbon Trial level.

13.2.2 Deduction of All Points

Judges will deduct ALL POINTS allocated to an exercise as follows:

13.2.2.1 Test C Retrieve If article is given to dog.

13.2.2.2 Scent Discrimination (Test A, B and C)

If any command is given after dog reaches scent area and until dog passes scent area when returning to handler with correct cloth. If dog brings wrong cloth out of sent area. If dog brings wrong cloth out of scent area in addition to correct cloth. If dog fails to return and sit in front of handler with correct cloth within prescribed time limit. In Test B, if the handler's cloth that goes into the scent area is given to dog.

13.2.2.3 Stay Exercises - Sit, Stand and Down.

All classes. If handler commands dog in any way during stay exercise after steward's command "Leave your dogs".

13.3 Discretionary Penalties

13.3.1 Judge's Discretion

All non-mandatory penalties are at the judge's discretion.

13.3.2 Quantum of Penalties

Judges will vary penalties upwards from the minimum mark according to magnitude of fault and, at the judge's discretion; penalties will be more severe in higher grades than in Special Beginners and Novice.

13.4 Faults and Disobedience

Although a fault should incur only one penalty, deliberate disobedience should be more heavily penalised, e.g. in Test B and C heelwork, dog is required to sit at each halt unless otherwise ordered. If dog fails to sit it has faulted but not disobeyed, and handler must give the command "sit", which will be penalised as for an extra command. If on receipt of command dog does not sit then it has disobeyed and there should be a double penalty.

13.5 Judging Specific Exercises

13.5.1 Heelwork

13.5.1.1 Faults

The following faults apply to all classes from Special Beginners through to Test C.

- . Tight lead - a serious fault
- . Lagging - failure to keep up with handler.

- . Anticipation - running ahead of handler, moving from halt prior to handler's command for dog to heel.
 - . Heeling wide - moving out wide from handler.
 - . Wide turns - failure to keep close to heel on turns.
 - . Crooked sits - failure to sit close to handler's left leg and parallel to the direction in which handler is facing.
 - . Stepping into dog at the halt.
 - . Handler pushing with knee or leg on left turn. Dog colliding with or running into handler.
 - . Excessive gaiety - continual jumping etc. (The essence of sound Obedience Training is that dogs should display keenness and love for their work but nevertheless continual frolicking must impair the efficiency of all exercises of movement).
 - . Scoring for heel free shall be the same as for heel on lead.
- 13.5.1.2 Test C Heelwork**
- 13.5.1.2.1 Markers** - when markers are used in heelwork they should not be positioned to distract dogs in send away.
- 13.5.1.2.2 Advanced Sit-Stand-Down**
 A dog may not disobey a direct command and penalties should be made accordingly.
 Judge may consider high penalties, as dog can be said to have failed that particular part of exercise. In this composite exercise judge apportions marks for each part and if allowance is say seven for one part, then this amount may be the penalty.
- 13.5.1.3 Combination Turns**
 A Combination Turn is any combination of turns including any commands which include a turn requiring the handler to take less than 2 places between commands. Only those combination turns described in these regulations are permitted.
- 13.5.2 Recall**
- 13.5.2.1** Principal features are the Stay until handler calls dog, the prompt response to handler's command or signal to come, and in Special Beginners and Novice, that dog shall sit in front until steward's command "finish".
- 13.5.2.2 Special Beginners and Novice:** The following faults apply:
- . Slow response to come - dog should go to handler at a pace faster than a walk.
 - . Sits - failure to sit straight and/or close in front of handler in recall, failure to sit close to handler's left leg and parallel to direction handler is facing on finish.
 - . Poor finish - failure to stay close to handler on finish.
 - . Anticipation - movements before ordered to do so. If dog immediately follows handler when handler moves away and handler commands dog to stay and dog obeys and subsequently completes the exercise, penalty would be for an extra command. Penalty in this case may, however, be as high as 5 points. If dog runs to handler just before steward orders "Call your dog" penalty would probably be a minimum of two.
- 13.5.2.3 Test A:** Faults, where they apply, as for Special Beginners and Novice.
- 13.5.3 Retrieve**
- 13.5.3.1** The principal feature of this exercise is for the dog to retrieve promptly.
- 13.5.3.2** The following faults apply:
- . Anticipation.
 - . Excessively slow - dog should go out and back at a pace faster than a walk.
 - . Excessive mouthing.
 - . Dropping dumb-bell.
 - . Poor finish.
 - . Sits - as for Recall. If handler has to reach out to take dumb-bell this should incur a penalty. Handlers with small dogs may bend down but they should not have to reach out.
- 13.5.3.3** Minor faults:
- . Dog carrying dumb-bell by one end.
 - . Handler taking dumb-bell from dog with one hand.

13.5.4 Send Away

The principal requirement is that the dog will go out at a pace faster than a walk and should continue directly forward without pausing or looking back. The paramount consideration should be that dog makes the distance. Judges must ensure that the direction and point at which the dog must be dropped and route handler is to walk are made clear to each handler before commencement of exercise. Handler may face dog in required direction before commencing exercise. Handler is permitted to place a hand in front of dog's head and extend their arm at the same time as they command dog to go out but there must not be any prolonged motioning. Handler may bend forward, but must stand straight as soon as verbal command has been given. If handler wishes to give dog an extra command to re-direct dog a simultaneous verbal command and a directional signal are permitted.

13.5.5 Scent Discrimination

13.5.5.1 Principal Feature

The principal feature of this exercise is selection of handler's (or judge's in Test C) cloth from among the other cloths and prompt carrying of cloth to handler.

13.5.5.2 Judge's Responsibilities

Judge must ensure that cloths are properly separated before dog is sent out. Judges should, if practicable, not go into area after cloths have been placed there.

13.5.5.3 Provision of Cloths

All scent cloths except Test C judges and Test A handlers shall be provided by the club conducting the test or trial.

13.5.5.4 Distances in Scent

The first cloth should be at least one metre from the front of the scent area, cloths should be a minimum distance of 600mm apart and a maximum distance of 1000mm apart and handler should be 8 - 10 paces from the scent area.

13.5.5.5 Faults

The following faults apply:

- . Anticipation.
- . Excessively slow - dog should go out and back at a pace faster than a walk.
- . Excessive mouthing.
- . Dropping cloth
- . Sits - as for Retrieve
- . Poor finish
- . Disqualification faults

13.5.5.6 Specifications for Cloths

Cloth should consist of a single layer of fabric and measure no less than 150 mm x 150 mm and no more than 200 mm x 200 mm.

13.5.6 Stay Exercises

13.5.6.1 Principal Requirement

The principal requirement is that dogs stay in position and remain in stand, sit or down, whichever is required. Although it is important that dog shall stay where handler left it, retention of posture is important. Fighting by dogs or some exceptional occurrence may be considered by the judge to demand special treatment.

13.5.6.2 Deduction of Points

In stay exercises in all tests the deduction of points shall be in proportion to the time that the fault occurred.

13.5.6.3 Distractions

13.5.6.3.1 Test A - Sit and Down

Distractions, if employed, shall be limited to walking past and around dogs.

13.5.6.3.2 Test B and C - Sit and Down Judges are forbidden to:

- . Throw or roll any article in such a way that it can roll or strike against any dog;
- . Discharge firearms, starting pistols or fire-works;

- . Use commands normally employed preparatory to the commencement of the exercises, viz "Sit", "Down" or "Stand";
 - . Jump over or run over dogs.
- If umbrellas or flapping articles are employed these must first be opened or agitated in front of dogs at a point approximately equidistant from all dogs.

13.5.7 Distant Control

- 13.5.7.1** For each of the six changes of position penalties shall be as follows:
 Failure of dog to achieve correct position on first command including penalty for extra command – up to 4 points (total)
 Failure of dog to achieve correct position after two or more commands – 8 points (total).
- 13.5.7.2** The permissible distance of movement in total forwards or backwards is half a body length of the dog
- 13.5.7.3** A handler that steps off the spot before the six positions have been successfully completed will lose 50 points.

14. General Provisions for the Conduct of Tests

22.2.1.2 Dogs which have qualified TD are not eligible to compete in UD.

22.2.2 Qualification Points

22.2.3 Commands

One command by voice or signal except where otherwise specified

22.2.4 Exercises

Points

All exercises other than 22.2.4.4 will be taken individually. The following exercises commence with the dog sitting at heel: 22.2.4.1, 22.2.4.2, 22.2.4.3.1, 22.2.4.3.2; 22.2.4.5

22.2.4.1 **Heel Free** as for Test B, plus figure of eight around two people 1500-2000mm apart. Changes of pace must be definite. The precision required in Test B is not required in trials, but dogs must be attentive to handler and maintain a reasonable heel position at all times.

25

22.2.4.2 **Send away drop and recall:**

The send away area should be at least 20 metres from the heelwork and jumps area, and the direction of the send away must be away from the heelwork and jumps area. Dog to be sent straight out from handler a distance of no less than 36 metres or more than 54 metres to an area marked with natural markers, which will also be used to mark the side limits 20 metres to the left and right of the centre line. Dogs can be re-directed to be within the marked area after the distance is reached outside the markers. Dog to be sent out in a straight line, dropped by the handler, recalled to start, sit and finish. Simultaneous command and signal permitted.

25

Explanatory Notes: -The principal requirement is that dog will go out at a smart pace (faster than a walk) and should continue directly forward without pausing or looking back. The paramount consideration should be that dog makes the distance. It is recommended that if the send away has to be set up immediately prior to commencement of the exercise, the natural markers should be placed from the rear of the send away area with no walking permitted along the line between the markers at the 40 metres distance point.

22.2.4.3 **Jumps:** The jumps provided for the trial must meet the specifications laid down in these Regulations. Handlers are permitted to practise the jumps at the height appropriate for their dog, with the jumps in the same position as they will be in the trial. Second attempts permitted for a maximum of half points. Handlers will be advised if a second attempt is required. Handlers may elect to attempt an alternative jump before having a second attempt at the failed jump. A dog which stops after a jump but does not assume the selected position should lose points but not fail the exercise.

22.2.4.3.1 **Clear Jump:** Retrieve handler's wooden or synthetic dumb-bell over clear jump approximately twice height of dog at shoulder. Judges, at their discretion, will order the most appropriate height for each dog from the following: 450mm, 600mm, 750mm, 900mm. Exercise commences at a distance from jump to be decided by handler. When sending dog over jump handler may give two commands as an order to send dog over jump and retrieve dumbbell. Commands for return jump will be penalised. On return dog to sit in front of handler and finish. Otherwise handler's commands as in Test B. Dogs touching the jump will be penalised.

20

22.2.4.3.2 Scale Jump: Over wooden scale jump three times height of dog at shoulder (maximum 1800mm). One simultaneous command and signal permitted to send dog over scale. Dog to scale jump and proceed down ramp and stand, sit or down, at handler's discretion. Selected position to be communicated to judge before exercise commences. Command permitted as an order to dog to stand, sit or down. Dog to remain in selected position until steward gives order "Exercise Finished". Handler will stand in any position as may be allowed by judge but at no time will handler be permitted to stand forward of scale.

20

22.2.4.3.3 Long Jump: Length four times height of dog at shoulder (maximum 2700mm). Distance from jump before commencing exercise at handler's discretion. Dog to complete long jump and stand, sit or down at handler's discretion. Selected position to be communicated to judge before exercise commences. Command permitted as an order to dog to stand, sit or down. Dog to remain in selected position until steward gives order "Exercise Finished". One command and signal permitted, and handler permitted to use one of or a combination of the following methods: Send dog from heel position

Leave dog sitting, go to near end of jump and give command from this position.

Run with dog to near end of jump but no further. Dogs must clearly jump the full length of the long jump. Landing on the last board or cutting off the last board will mean that a second attempt is required. Knocking over the last board, e.g. with the dog's tail, will incur a penalty.

20

Explanatory Notes: The exercise commences with dog sitting at heel, but handler need not necessarily stand alongside dog.

22.2.4.4 Down Stay: Down 10 minutes, handler out of sight. As in Test B except for length of stay. Dog must remain down for first 5 minutes and dog must remain in the working area to qualify.

10

22.2.4.5 Seek Back: 90 metres in length for small dark object (not cloth), similar to a purse or wallet and no larger than 120mm long, 100mm high and 40mm wide. Handler to walk 20 metres before dropping article on steward's command, then 90 metres with left or right turn as directed. Seek backs must be laid so each dog is working into clean ground. Timing commences when handler sends dog. Dog must retrieve article and return to handler immediately. Once dog has recovered article, handler may command dog to return to handler. Time limit 3 minutes.

30

22.2.4.6 Leash Track: 30 minutes old. Length of tracks should be between 600 - 800 metres. One starting stake shall be used. Track shall contain either three or four legs but track for each dog shall contain same number of legs, and may go through open grassed gateways or an open wire fence which is not an obstruction to the dog. Handlers will be notified prior to the running of the trial if tracks go through fences. If handler and dog stray 30 metres from track, they shall be given signal by whistle and allowed to recast where handler felt dog was last tracking. Dog to pick up or indicate tracklayer's article which is to be a cloth, no less than 150mm x 150mm, which blends well with the ground cover. Extra handler's commands permitted. Time limit 15 minutes.

Track	190
Recognition of article	10

200

Total UD 350

Explanatory Notes: -If possible leash track should be plotted on ground by trial manager and tracklayer previous to trial. When judging is in progress, tracklayer should be present at the side of judge to indicate exact line of track and position of article. Unless dog is in danger of fouling another track, or judge considers dog to have lost track beyond recovery, handler may recast dog at his discretion.

-Judge should not indicate to handler where he should recast dog unless there are exceptional circumstances.

Dog and handler will then proceed at fast pace and in handler's own time he may give a simultaneous command and signal for dog to jump long jump. Dog will rejoin handler at heel position on far side of long jump. Handler must not advance ahead of dog in long jump. Handler and dog continue at fast pace until ordered to halt. One handler's command (voice or signal) permitted after each jump. Practice of jumps permitted as in UD. The points are divided into two sections each requiring a pass

A handler error can be assessed from 1 to 10-points up to non-qualifying at any station or during movement between stations on a course. Unless otherwise stated, once a handler has stopped on any halt exercise, the handler cannot move his feet to assist a dog without incurring a handler error.

28. GENERAL PROVISIONS FOR THE CONDUCT OF RALLY-O EVENTS

28.1 Commencement

At the commencement of the Rally-O course, the handler starts with dog sitting at heel. Timing, however, commences when team walks past the “Start” sign, following the judge saying “forward”.

28.2 Definition of "Command"

Talking to dog by handler, snapping the fingers, slapping the side, stamping the feet, and whistling are regarded as commands.

28.3 Praise and Encouragement

Handlers are encouraged to give their dog verbal praise and encouragement throughout the entire course between stations.

28.4 Use of Name of Dog

Handler may use dog's name once with each command or signal.

28.5 Physical Positioning of Dog

Unless otherwise specified, forcibly and manually placing or controlling dog is subject to penalty deductions or disqualification.

28.6 Use of Lead and other equipment.

28.6.1 Rally-O Novice

Rally-O Novice courses are conducted on lead. Dogs must have on a basic non studded fabric or leather collar

28.6.2 Handling of Lead

The lead must be held but whether in the right or left hand is a matter of choice for the handler.

28.6.3 Rally-O Advanced and Excellent

With the exception of stays, Rally-O advanced and excellent courses are conducted off lead.

When dogs are off lead, dogs must have on a basic non studded fabric or leather collar.

28.6.4 Placement of Leads

Where the lead is not required, it may be left with the steward, or placed completely in the handler's pocket until the course is finished, but never worn outside the handler's clothing. The dog must be brought into the ring and leave the ring on the lead.

28.6.5 Other equipment

Muzzles, halties are not permitted. Dog footwear will be permitted only after a veterinary requirement to do so is produced to the event manager. Dog coats shall be permitted at handlers discretion, but must be worn when used throughout the entire course.

28.7 Run Offs

28.7.1 Requirements for Run Offs

Run-offs must be held if more than one dog obtains the same points and course timing on any placing for which prizes, trophies, awards or sashes are to be awarded.

28.7.2 Composition

Run-offs shall consist of the team repeating the Rally-O course, for which they will be scored and timed again. The original score will not, however, be changed, but a plus (+) will be added after the score of the dog winning the runoff.

28.8 Walking the Course

28.8.1 Walk Through Groups

Handlers will walk the course in groups, and be of ten minutes duration without dogs. Following the walkthrough, this group will then be judged. After the first group has been judged, the next group will walk the course and be judged, and so on until the class is finished.

28.8.2 Walk Through Group Size

Groups should be no larger than twenty at a time, but the judge may allow up to no more than five extra competitors to walk the course if this reduces the number of walkthroughs required, and only if they believe that this will not cause overcrowding or disadvantages to competitors during the walkthrough. Extra competitors will be judged in the same group as they walked the course with, and if such a change is made, affected competitors must be advised as soon as possible.

28.8.3 Catalogue Order

Handlers will be grouped for walkthroughs and judging by catalogue number and these groups will be posted at the ring prior to the first walkthrough.

28.8.4 One Walk Through per Class

Each competitor may only take part in one walk through per class. Handlers with multiple dogs in class will take part in the walkthrough that pertains to the judging of their first dog. Handlers may only change which walkthrough they take part in with the permission of the call steward, and only if this does not cause numbers in any one walkthrough to be exceeded. Handlers who do not walk the course with their assigned group because they have walked it earlier will still be judged in that group.

28.8.5 Judge Available

The judge must be available in the ring during the walk through to answer any questions the handlers might have. The judge may also choose to brief the handlers on the course during this period.

28.8.6 Walk Through Time Published

Walkthrough times need only be published in the judging programme and catalogue for the first Rally-O class scheduled and shall show a time of ten minutes prior to the scheduled start time for the class.

The judging ring for Rally-O Events should be 13m x 16m to 16m x 19m or any combination of sizes in between. If practicable should be separate from any other obedience or breed judging ring. If outdoors, grass should be mown and loose clippings removed.

29.2 Stewards

29.2.1 Time Steward/Timekeepers

All Rally-O Classes must have an assigned Time Steward/Timekeeper to record each participant's course timings, including when electronic timing is used.

29.2.2 Stay and Call Stewards

Judges must be assisted by a stay steward during Rally-O Excellent events. Call Stewards may be used to assist in ensuring continuity of participant flow and pre walk through group assemblies.

29.2.3 Stay and Time Stewards/Timekeepers to Officiate For All Entries

Unless there are exceptional circumstances Stay and Time Stewards/Timekeepers should officiate for all entries in any Rally-O events for which they have been appointed. When electronic timers are used, different Time Stewards/Timekeepers may officiate for any Rally-O class they are not competing in.

29.2.4 Stewards to Be Competent

Where stewards are supplied by clubs, the Event Manager must ensure that stewards appointed to assist the judge understand the Regulations concerning events for which they have been appointed and are fully conversant with orders etc. to be given to handlers.

29.3 Entry Numbers Exceeded

Entries may not be refused based on excessive number of entries for a particular event. In the event that entries exceed maximum numbers as provided for in 8.2.3, clubs must split the test by equal balloting and use the scheduled reserve judge. Handlers are not eligible for a refund if the test is split, unless a non- scheduled judge is used.

30. ORDERS FOR RALLY-O EVENTS

30.1 Clarity

All orders or signals given to handlers shall be sufficiently clear and distinguishable for handlers to follow.

30.2 Commencement and Finish

Rally-O judge commences each course with "Are you ready?" followed by "Forward". No other orders are necessary.
